

Top 10 Benefits of OmniTouch My Teamwork

OmniTouch My Teamwork saves money while increasing productivity and fostering innovation. Presence-based multimedia communication — IM, telephony, audio and video conferencing, and Web collaboration—lets users choose when and how to get work done. From simple IM chat sessions to full-scale conference calls, OmniTouch My Teamwork features the tools enterprises need for day to day success.

1. Work from any location, any network, and any computer

With evolving workplace cultures, communication cannot be limited to the office and corporate network. OmniTouch My Teamwork runs on any PC, with any PBX, and with any browser so users can work from any location world wide without helpdesk assistance.

2. Reduce costs

As a conferencing and collaboration tool deployed on-premises, OmniTouch My Teamwork offers a hard return on investment when compared to expensive Web and audio conferencing services and travel costs.

3. One software solution for all your needs

As a full-featured conferencing and collaboration solution with presence-based IM and carrier grade audio and Web conferencing, OmniTouch My Teamwork is truly an all in one solution.

4. Increase productivity

Eliminate the delays associated with email and voice mail with presence-based multimodal communications. Know when colleagues are on the phone, in a meeting, or unavailable. Presence-based communication fosters natural, spontaneous interaction. Get answers and resolve issues quickly and efficiently using OmniTouch My Teamwork.

5. Plug and play user environment

With an easy-to-use, browser-based interface, all you need is a telephone and a computer with Internet access—PC, Mac, or workstation—for full-featured Web conferencing, document management, application sharing, and more.

6. Easy installation and deployment

With installation on one off-the-shelf computer, an intuitive admin interface, support for multiple languages, LDAP, multi-tenancy, remote system monitoring, no user downloads, and much more, OmniTouch My Teamwork is easy to deploy, manage, and support.

7. Grows with your organization or business

Whether you have 5 users or 20,000, OmniTouch My Teamwork scales up or down to meet all demands. With no proprietary hardware required and software licensing, adding users and features is simple and fast.

8. Customize for your needs

Offering a services oriented architecture with standards-based APIs, OmniTouch My Teamwork telephony enables SFA, ERP, CRM, and other business applications.

9. Extend your business reach

Easily connect with partners, customers, and clients—no matter where they are. Reach more people, in less time with lower costs and proven results.

10. Collaboration in real-time with results

Discuss projects and issues in real time with team members. In today's fast-paced world you can't wait for everyone to get together in person. Conduct virtual meetings with all stakeholders, regardless of location and get results quickly.
